

# VARUN DEGLOORKAR

Hyderabad, TG |9959927603| varundegloorkar@gmail.com

## Objective

---

Enthusiastic and proactive fresh graduate seeking to launch a career as an SEO Analyst. Committed to leveraging strong research, analytical, and communication skills to optimize website content and improve search engine rankings. Dedicated to staying updated with SEO trends and driving organic traffic growth for the organization

## Projects

---

### Wallet Watchdog:

An expenditure tracking Android application using XML for the front end and Google Firebase for the back end. Key features include an automated pop-up dialog box, expense categorization, and data visualization.

### Heart Disease Prediction:

The aim of this project is to predict the heart disease of patients based on their data. We used different machine learning algorithms in order to compare and find the most suitable algorithm.

### Wine Quality Prediction:

The aim of this project is to predict the quality of red wine based on the data. We used different machine learning algorithms in order to compare and find the most suitable algorithm.
